

## **PRESIDENTS MESSAGE**

It is that time of year when many of our snowbirds are heading back up north. It is important, if you are planning to head back north for the summer, that you make sure your unit is prepared for the upcoming hurricane season. Please prepare as follows;

- \* Remove all items on the outside of your unit that can blow around in a storm.
- \* If you have approved long term shutters you may want to make sure they are in place before you leave.
- \* Make sure the Office has your valid phone number, email and northern home address.
- \* The Office should have a copy of your door key in the event they need to enter your unit in an emergency.
- \* Our documents mandate that a homeowner who is leaving for an extended period of time, such as our snowbirds, have a home watch in place to check regularly on their unit. Please make sure you have such.

For those leaving to head back to their northern home, please have a safe trip home and a safe and wonderful summer season.

John Davenport  
President of the POA
